

Cleaning Business Starter Kit

Route Ready — routereadykits.com — built by an operator, not a template shop.

How this works (read this first). Every file below is a link. Click it, and Google will offer to make *your own copy* in your Google account — yours to edit, rename, and use forever. Nothing is shared back to us; your numbers stay your numbers. You'll need a free Google account. Prefer Excel/Word? After copying, use File → Download in Google to export any file.

Start in this order

1. **Pricing Calculator** — set your rate, floor, and production speeds. Every quote flows from this.
2. **Startup Checklist** — registration, insurance, supplies, first clients.
3. **Residential Service Agreement + Intake Form** — ready before your first walkthrough.
4. Everything else as the work shows up.

Price it right

SHEET Pricing Calculator

Square footage in, flat-rate quote out — with a minimum-job floor the sheet won't quote below and a margin check that flags money-losers in red.

Bonus

DOC Pricing Cheat Sheet

The 2-page pricing formula and route-density rule — works for any local service trade. Share it with a friend starting out.

The templates are starting points, not legal advice. Contracts and policies vary by state and county — have a local attorney review anything you'll sign clients to. Tax categories are common examples, not tax guidance.
